The Aircraft

N900LH is a 2015 Daher TBM 900 hangared at Charlottesville-Albemarle Airport in central Virginia, flying with Little Hawk since 2023. The TBM 900 is among the fastest single-engine turboprops in production, cruising at up to 330 knots with turbine reliability and access to the smaller airports the airline network does not serve.

From Charlottesville, Manhattan is about an hour and a half away, Miami about three hours and Nassau about three and a half.

Cabin & amenities

- Black leather seating with red accent stitching for up to five
- Fold-out carbon fiber work table
- High speed Starlink internet on every flight
- Full pressurization and large oval windows
- Garmin G1000 NXi flight deck; certified for flight into known icing
- Pets welcome; no lavatory on board

LITTLE HAWK LOGISTICS 434-825-4070 · eric@littlehawklogistics.com · littlehawklogistics.com

Little Hawk Logistics LLC is an air charter broker and the owner of the aircraft. It is not a direct air carrier and does not exercise operational control of any flight. Charter flights are operated by 45 North Flight, the direct air carrier, under FAA Air Carrier Certificate 9CCA698M, which holds sole operational control of every flight. Specifications are typical and subject to load, weather and runway conditions. Fact sheet current as of October 2026.
