

Twelve years on one aircraft type: 8,000+ hours, and now Scottsdale

Little Hawk Logistics has built its charter business on the Daher TBM since April 2014. This month it added on-demand TBM charter from Scottsdale Airport (SDL), Arizona, alongside its home at Charlottesville-Albemarle Airport (CHO), Virginia.

8,000+ block hours	7,000+ passengers	1.6M nautical miles	500+ airports
3 in 5 of those airports have no scheduled airline service	40+ airports with runways under 4,000 ft	94% of passenger legs carry four people or fewer	99.8% of legs fit within the 1,250 nm dispatch range

THE COMPANY

Little Hawk Logistics LLC is an air charter broker and the owner of three Daher TBM turboprops. It is based at Charlottesville-Albemarle Airport (CHO) and arranges charter from Charlottesville and from Scottsdale, Arizona. All charter flights are operated by 45 North Flight, the direct air carrier.

THE FLEET

- **N900ME**, Daher TBM 900, in the fleet since 2018
- **N900LH**, Daher TBM 900, since October 2022 (first registered N975JB)
- **N910VM**, 2017 Daher TBM 910, since July 2026; hangared at Jet Aviation Scottsdale
- History: began in April 2014 on a TBM 850, N842MA (in the fleet through 2022)

Up to five passengers, pressurized, up to 330 knots true airspeed, high speed Starlink internet on all three aircraft.

THE CREW

Flights are crewed by 45 North Flight pilots under its approved training program: five professional TBM captains and a full-time first officer. Two hold FAA check airman authorizations.

SCOTTSDALE

Approximate flight times from SDL: Palm Springs, Las Vegas and St. George about one hour; San Diego and Orange County just over one; Santa Fe, Telluride and Santa Barbara about one and a half; Aspen, Vail and Denver under two; Pebble Beach about two. The City of Scottsdale's airport master plan forecasts charter passenger growth of 8.8% a year.

THE FOUNDER

Eric Walden, Founder and President, is a pilot and check airman with more than 11,300 hours. He flew as a captain at Atlantic Coast Airlines and spent eleven years at NetJets before founding Little Hawk. He is the grandson of FlightSafety International founder Albert Ueltschi, "The Little Hawk," for whom the company is named.

Figures: aircraft in Little Hawk's TBM fleet, April 2014 – 14 October 2026, from trip sheets and JetInsight records. Block hours run from engine start to shutdown; distances are great-circle; the dispatch range includes alternate and fuel reserves. Flight times are approximate and vary with weather, routing and airport conditions. Little Hawk Logistics LLC is an air charter broker and the owner of the aircraft. It is not a direct air carrier and does not exercise operational control of any flight. Charter flights are operated by 45 North Flight, the direct air carrier, under FAA Air Carrier Certificate 9CCA698M.
